

eSourcing in Action

Using EC eSourcing to Streamline & Automate the Impossible

The Story:

A client in the Chemical Manufacturing Industry wanted to maximize savings and maintain quality / service levels for office supplies. They used an RFI/RFP followed by a reverse auction. The graph below shows the savings generated during the auction. Three bidders participated, but in the end only two bidders were competing. The suppliers didn't know how many other suppliers participated and they didn't know the best bid or their rank. They only knew if they were in first place or not. One bidder moved over \$300k during the auction (*the red square icon moved from \$60k to \$360k savings*).

Auction Savings:

Sourcing. Simplified.

“After implementing and using EC Sourcing in North America, we expanded the system to Europe, LATAM and APAC. Global implementation was extremely successful because our dedicated account manager knew procurement and understood our needs first-hand.”

*Vice President Global Procurement
